COOL-AZ

TOP COOL Spray cools up to -45 °C and vaporizes immediately, residue-free. It is ideal to instantly freeze foam pellets and dental rolls to perform an indirect vitality check on the tooth. It is not meant for direct oral use.

It can also be used for rapid cooling of impressions and thermoforming films (medical device class 1). A precise application tube serves for pinpoint application. Top Cool Spray comes in peppermint flavor, filled with propellant in cosmetic quality.

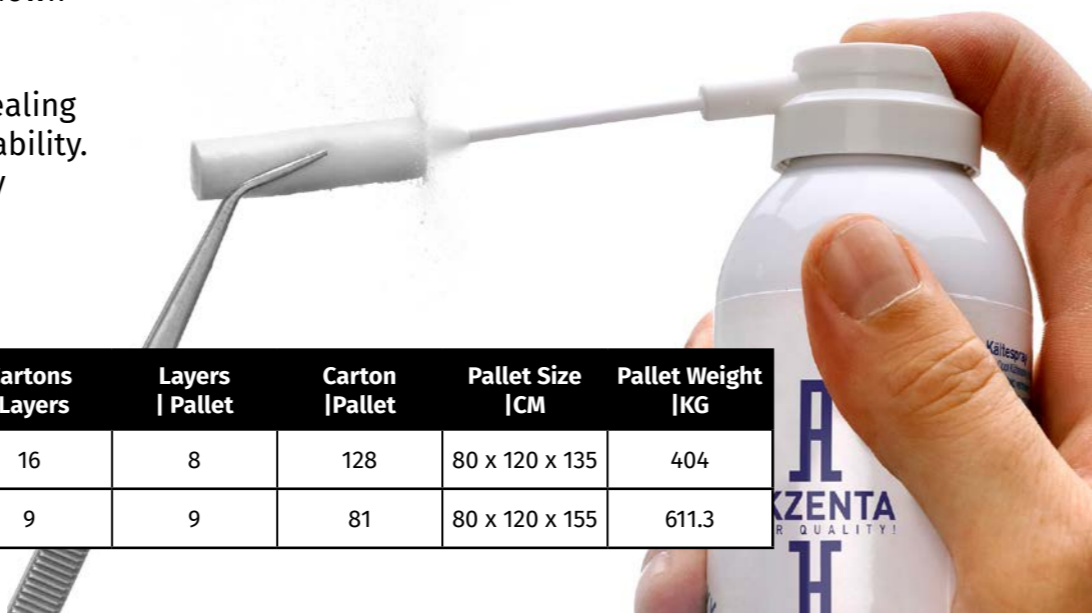

400-ICET-L02
100-ICET-L02

By pressing and shaking the **TOP FROST bag** an internal endothermic reaction between the water and the azotic salt compound is triggered. As a result, the temperature drops down to -5°C.

External bag made of non-woven fabric with a triple heat sealing to guarantee highest resistance, cold storage and impermeability. The non-woven fabric makes sure the temperature is evenly distributed. Patent protected.

Mixture of azotic salt according to EU-norm CE 1907/2006.
